Date of birth: March 18th, 1987

YEARS OF PROFESSIONAL EXPERIENCE 10

SERVICES Web development

PROFILE

I specialize in full-stack web development with Node.js & Vue.js

My main expertise is on the backend side of things, but I can also work fluently on the frontend with Vue.js.

Full listing of my work experience and skills can be found at my company's website: <https://nurminen.dev>

Since 2022 I have been working exclusively for a client who develops Sales Channel management software. My responsibilities for them have been:

- Developing V2 of their app from the ground up with Vue.js
- Rewriting and refactoring their existing backend to meet demands of new frontend, while retaining backwards compatibility
- Handling DevOps tasks on Azure cloud
